

# Calling for Your Input!

## Public Input Survey for Florida's Next State Plan on Aging

The Florida Department of Elder Affairs recognizes that the most impactful voices regarding the opportunities, challenges, and concerns facing older adults comes from our fellow Floridians, their families, and caregivers. As we embark on the process of developing our state's next four-year State Plan on Aging, we ask that you please take a few minutes to share your thoughts and insights with us by completing a short survey.
